

ASA Minutes 4/05/07

Present: Mike McGraw, Aaron, Alex, Jen, Obrad, James, Dennis

Activities Midway:

Mike McGraw is going to upload assignments for tables tonight.
Everything seems to be going according to plan for this.

FYSM:

30 GROUPS

17 for mailing

17 for giving them out during orientation

15 for just posting the URL

We're not under an obligation to do this democratically. However, people would appreciate it. If we vote about it, we should put that on an official email. We'll go ahead and take a vote at the GBM.

We also need to consider costs.

It might also be possible to have the GSC fund some of the shipping.

Let's email the GSC officers about this.

The FYSM will go into next year's budget. Jen to send email to the GSC officers.

New groups, GBM, and next board meeting.

We need to pick a time.

Meet with the groups at 5:30 on the Tuesday before the GBM.

We won't meet on Thursday the 12th but Thursday the 17th with the new officers..

How to run the elections.

Maybe use the method that the GSC uses.

2 minute speeches.

Jen will run the elections.

Set a time limit for speeches and discussions.

Jen to email provisional groups.

How to do training.

There should be written instructions.

Alex can setup a Wiki.

How to run allocations.

We should probably suggest allocation categories to the new board.
